

Design Engineering's index for 1976

Assembly

- Backup-tape speeds welding at high-volume spiral pipe plant
Prescription for fastening problems
Metrication in the fastener industry
Metrics: Inching toward a rational approach
Duplication makes conversion mandatory and inevitable
Self-clinching nuts ease disassembly
The current status of metric thread gauges
Straight hinge linkage pins save installation time, money

Materials

- Magnets shed light on FRP thickness
Post-forging finishing operations bridge the casting/cold forging gap
Materials update
Proper choice and use of perforated metal
Combined process simplifies parts output
Primer on thermoplastic selection
Guidelines to designing with thermoplastics
Parts design with engineering materials
How to choose the right material
Key design properties of leading engineering resins
Plastics use in aircraft: the sky's the limit
FRP's: making their presence felt
Reinforced plastics processing guide
Plastics in the transportation industry

Mechanical power transmission

- What's new in variable speed drives
What's new in brakes and clutches
Breakthrough in design of rear disc brakes
Electromagnetic clutches and brakes
Mechanical power transmission buyers' guide

Mar p27
May p22
May p26
May p27
Oct p27

Miscellaneous

- Keeping the big birds trim
Ottawa curbs R & D grants
B.C. bridges worth their weight in gold
Steel belted shaft-to-bore seal stops high-pressure blowouts

- 1976 Design Engineering Show Preview
New engine could mean better performance

- Ship crane compensates for heavy weather
A helping hand in space

- Automation in the Post Office
Technology transfer benefits Canadian automation

- Low cost automation: Could it work for you?

- Investing in innovation: Where does the money come from?

- Needs of small business a priority for new minister

Process equipment

- Canadian-designed gas turbine will cut process industry costs
Petrosar: Profile of a major Canadian design engineering achievement
Glace Bay: phoenix rising?
Role of government is key to future

Jan p39
Aug p18
Aug p26
Aug p27

Electrical and electronic

- Electric motors and controls buyers' guide
New electronic control designs increase motor system efficiency

- MHD generation, Part 1: Hot plasma rotor, electromagnet stator could increase power generation by 50%

- MHD generation, Part 2: Canadian system proposes combination of nuclear, MHD power

- Remote control TV tuner eliminates cord

- What's new in variable speed drives

- Modified relays handle tricky switching

- What's new in brakes and clutches

- Electromagnetic clutches and brakes

- Motors for low temperature use

- Variable speed gearmotors: watch out for low-speed performance

Fluid power

- What's new in variable speed drives
- What's new in brakes and clutches
